

Project Delivery Services

CUSTOMIZED PROJECT DELIVERIES FOR YOU

Responsiveness and flexibility are the key values in working with you. We offer tailored wind park solutions according to your requested scope, including turn-key.

We deliver!

WINWIND OFFERS COMPREHENSIVE PROJECT DELIVERY SERVICES. OUR IN-HOUSE COMPETENCES AND EXTENSIVE NETWORK OF LOCAL PARTNERS ENSURE OPTIMUM PROJECT DELIVERY FOR YOU.

CUSTOMIZATION AND COMPREHENSIVENESS

We can offer a wind park as a turn-key delivery or customize services from a selection of options. We take responsibility in finding the optimum service package to fully meet your project's requirements.

PROJECT DEVELOPMENT

WinWinD adds value to your wind park project starting already from the development phase. We can support you, for example in analyzing wind data, micrositing, the permitting process and evaluating the business case of your wind park. In this way we create a solid foundation for successful project execution.

PROJECT EXECUTION

Our experience and expertise bring you comfort during the project delivery. WinWinD has a proven track record of successfully delivered wind parks to demanding environments. Our project management practices ensure the timely and high-quality delivery of your wind park.

WORKING WITH US

For us, a wind park project is not only about turbines, it is also about people and communication. WinWinD is a collaborative and responsive partner. We are flexible and happy to comply with your business model. WinWinD provides a team of professionals fully dedicated to your wind park project.

WINWIND'S PROJECT SERVICES

We work together with you to find the best solution for your project. WinWinD offers a wide range of project services for customizing each project.
